Charlotte Dennery

Charlotte Dennery is CEO of FundQuest, the multi-management of specialist of BNP Paribas Investment Partners, the asset management business of BNP Paribas group. Globally, the FundQuest team comprises over 200 employees, including 48 investment professionals.

From 2004 to June 2009, she was Head of Finance, Development, Strategy and Asset Management for BNP Paribas Insurance, a 100% owned subsidiary of BNP Paribas. She was responsible for Budgeting, Accounting, Real Estate Management, Investment Management, Asset Liabilities Management, as well as proposing business development strategies and managing mergers and acquisitions for the Insurance business line.

Previous to this position, she served as Director of Corporate Development for the North American Territory where she was in charge of defining business development strategies as well as managing and coordinating M&A activities for the Group BNP Paribas in the United States.

Prior to working in New York, she held the position of Strategy and Development Manager for the Corporate and Investment Bank Department of BNP Paribas in Paris.

Charlotte began her career in 1991 in the French Finance Ministry. From 1991 to 1993, she was in charge of the analysis and production of French Quarterly Statistics at the Institute for Economic Studies and Research.

Between 1993 and 1996, she worked in the Budget Department and supervised the French Social Security Funds and worked on a new Family Law.

From 1996 to 1998, she was responsible for the definition and control of two key national budget lines: the Department of the Interior and the Local Administration resources.

Recognized as a Local Authorities specialist, she was named in 2000 as member of the Nation's Decentralization Committee, headed by former PM Pierre Mauroy and composed of representatives of both Congressional chambers, governors and mayors.

She ended her career at the Finance Ministry in 2001, in charge of the definition and fine-tuning of the French Public Sector compensation policy and human resources strategy.

She graduated from *Ecole Polytechnique* in 1988 and earned a Master's degree in Economics, Statistics and Finance from *Ecole Nationale de la Statistique et des Etudes Economiques* in 1990.
